## NOTIFICATION OF INSTALLATION OF MAST FOR SATELLITE DISH/ANTENNA

Will the mast for your satellite dish/antenna extend over twelve feet above the roof line?       YES       NO

Will the mast extend higher than the distance from the site of the installation to the lot line?       YES       NO

If you responded "YES" to either question, please provide your reasons why such a mast is necessary. Include a detailed drawing of the planned installation including:

- Description of the mast and satellite dish/antenna.
- Exact location of the mast and satellite dish/antenna installation.
- Description of the method and manner of the installation of the mast and satellite dish/antenna.
- Total height of the mast and the height it will extend above the roofline.
- Explanation of reason(s) why mast must extend to this height.
- Manufacturer specifications regarding the installation of the mast.
